WORK EXPERIENCE

hc1.com – Senior Product Designer (Remote)

May 2022 – May 2026

- Designed an AI clinical decision support tool, defining interaction flows and high-fidelity interfaces that translated complex model outputs and clinical data into clear, actionable experiences for care coordinators, cutting response time to under 2 minutes and driving evidence-based care decisions
- Owned end-end UX for an AI-powered lab supply chain analytics platform with two agentic workflows, designing dashboards and pricing workflows that surfaced cost patterns and savings opportunities across a \$25-30M portfolio, uncovering up to \$850K in savings and cutting manual analysis by over 70%
- Spearheaded UX for Workforce Optimization, a 0-to-1 predictive staffing platform, from customer discovery through interactive prototypes to launch, achieving 18% labor cost reduction and 34% efficiency gain within 6 months
- Rebuilt a high-density clinical configuration platform through 8 stakeholder interviews and 6 usability tests, restructuring Information Architecture around clinical mental models to cut configuration time by 60% and triple active users
- Consolidated 2 legacy tools into Data Control Center, a guided self-serve data platform, through a build-vs-buy evaluation, reducing customer activation time by 48% and enabling 2x faster data onboarding
- Navigated complex stakeholder requirements with a Fortune 500 enterprise client, balancing dense data needs with usability constraints to secure 100% client retention
- Built the company's first design system on Shadcn, serving 4 product lines, with design tokens, Figma libraries, and Storybook documentation, improving team velocity by 25% and shortening release cycles by 20%

Indiana University – UX Research Assistant (Indianapolis, IN)

Sep 2021 – May 2023

- Directed NSF-funded mixed-method user research under Dr. Erin Brady, designing and executing studies with 20+ disabled professionals to identify systemic workplace accessibility barriers and develop evidence-based inclusive design frameworks
- Synthesized findings across cognitive, physical, and social accessibility dimensions into actionable design recommendations, presenting to academic and industry stakeholders to inform accessible enterprise product standards

GraffersID – UX Designer (Remote)

Jun 2020 – Jun 2021

- Delivered end-to-end UX/UI across 15+ enterprise and startup client engagements in agile environments, making fast trade-off decisions that cut project timelines by 25% and reduced dev overhead per engagement
- Overhauled the company website conversion architecture through user flow analysis and competitive research, increasing engagement by 35% and client conversions by 18%

EDUCATION

Indiana University – Master of Science in Human-Computer Interaction (Indianapolis, IN)

Aug 2021 – May 2023

University of Mumbai – Bachelor of Engineering in Computer Engineering (Mumbai, India)

Jul 2016 – Aug 2020

SKILLS

Design: Interaction Design, Visual Design, Information Architecture, Responsive Design, Micro-interactions, Design Systems (MUI, Shadcn), Design Tokens, Accessibility (WCAG)

Strategy & Research: Product Strategy, UX Strategy, Product Roadmapping, Experimentation Frameworks, Customer Discovery, Usability Testing, A/B Testing, Stakeholder Management, Agile

AI Ecosystem: AI/ML Interaction Patterns, LLM-Powered Interfaces, Agentic UX, AI-Assisted Prototyping

Code: HTML, CSS, JavaScript, React, TailwindCSS, SQL, GitHub, VSCode

Tools: Figma, FigJam, Google Stitch, Claude, Claude Code, Cursor, Figma Make, Bolt, Lovable, Miro, Jira, Confluence, Looker

LEADERSHIP

- Pioneered an AI-assisted prototyping pipeline that translated design intent directly into production-ready React components, cutting design-to-development handoff time by 50% across the product team
- Facilitated a hands-on product design workshop at Stevens Institute of Technology, guiding students through end-to-end product development across user research, design systems, and product analytics
